## EDUCATION

**B.Tech in Computer Science** - Lords University, Alwar

CGPA - 8.83

2022-2026

**12th** - RBSE

Percentage - 72.60

2021-2022

**10th** - RBSE

Percentage - 76.33

2019-2020

---

## WORK EXPERIENCE

**Web Development Intern** - Upflairs Pvt. Ltd.

May'24 - June'24

- Worked with cross-functional teams to design intuitive **UI/UX**, implementing backend functionalities.
- Employed **HTML**, **CSS**, **JavaScript**, **SQL** to create a responsive, accessible interface.
- Integrated various **APIs** and third-party services to improve the application's overall performance.
- Conducted thorough **testing** and **debugging** to ensure reliability and high performance.
- **Tech Stacks**: HTML, CSS, NodeJS, ReactJS, MongoDB, SQL

---

## SKILLS

- **Languages**: C | C++ | JavaScript | SQL | HTML | CSS
- **Technologies**: Tailwind CSS | Git | GitHub | ReactJS | MongoDB | NodeJS | ExpressJS | Tableau | Power BI | Microsoft Excel
- **Skills**: Data Structure and Algorithms | Web Development | Database
- **Interpersonal Skills**: Problem Solving | Leadership | Time Management | Team Work | Adaptability

---

## PROJECTS

**Hospital Management System** |

Oct '23 - Dec '23

- Developed a hospital management web app for appointment scheduling and data management.
- Integrated key services like **Free Checkups** and **24/7 Ambulance** for emergency support.

**E - Learning Platform** |

Jan '24 - May '24

- Built a dynamic e-learning platform with **user authentication** and **real-time interactions**.
- Integrated payment gateway and used **RESTful APIs** with **ReactJS** for responsive, cross-device UI.

**College Event Simulation** |

July '24 - Dec '24

- Built a **MERN stack** platform for college students to book event tickets with QR-based check-in.
- Implemented **user authentication**, event creation, and **real-time ticket generation**.

---

## CERTIFICATIONS

**Accenture Software Engineering Job Simulation - June 2025**

- Gained hands-on experience in software architecture, security, programming, and testing.
- Completed real-world tasks designed by Accenture, with a verified certificate issued by **Forage**.
- Applied tech stacks like **JavaScript**, **Git**, and **REST APIs** to solve practical engineering challenges.

**Deloitte Australia Data Analytics Virtual Job Simulation – June 2025**

- Completed a simulation focused on data analytics and forensic technology.
- Built an interactive dashboard using **Tableau** to visualize key insights.
- Utilized **Excel** for data classification and deriving actionable business conclusions.
